AGENTS IN LONDON :
Messrs. James Lyall and Co., East India Avenue, Leadenhall Street.

1. This Company is formed under the auspices of the Government for the purpose of constructing a light Railway on the metre gauge between Bareilly and Ramouri, (close to Ranibaghi, at the foot of the Kumaon Hills, near Naini Tal, a distance of 65 miles, of which 4 miles will be constructed by Government, leaving about 61 miles to be constructed by the Company.

2. In view of the usefulness of this Line and the savings ensured by its construction, the Government has granted to the Company the following valuable concessions. The Government agree :—

a. To assign such portions of the existing road as may be required for the construction of the proposed Line, to concede such additional Government land as may be be needed therefor free of cost, and to acquire and transfer such other lands as may be required by the Company at cost price.

b. To grant sleepers of Huldu and other Bhabur and Terai woods for the construction of the line free of Forest dues.

c. To permit the Company to cut fuel at convenient distances on each side of the proposed line, within certain limits of the Bhabur and Terai, for the purposes of the Railway, on payment of a nominal annual royalty of Rs. 100.

d. To construct that portion of the proposed Bareilly and Pilibhit Line which lies between Bareilly and the point where that line crosses the Bareilly and Ranibagh road (about 4 miles), with passenger stations, platforms, and connections with the Oude and Rohilkund Railway goods-sheds, &c., and to give the Company running powers over this portion of their line, the Company paying Government a fair rent for the use thereof.

e. To pay the Company for a term of ten years, from the date of the opening of their line for traffic, an annual subsidy of Rs. 40,000.

f. The Post Office Department to pay the Company the sum of about Rs. 10,000 per annum (calculated on present actual cost) for the carriage of Mails.

g. To pay for the conveyance of Troops, Government Stores, &c., at the Company's rates.

h. To construct a new line of cart-road between the Ranibagh terminus of the Line and the Naini Tal Brewery.

3. The Company on their part undertaking to complete the Line within two years from the date at which they are put in possession of the land ; to maintain it in a reasonable satisfaction of Government ; to be responsible for the safety of all existing bridges and culverts utilised by them ; to run not less than one train each way per diem ; and to be responsible for the proper conveyance of passengers and goods along the road from the terminus to the Brewery upon the completion of the said new road.

4. Government to have the right to purchase the Line at the expiration of ten years from the date of opening at a price not exceeding 20 per cent. above the average value of the shares during the preceding three years as dividend-earning investments, and possibly at recurrent periods to be fixed hereafter.

5. These terms are highly favorable to the Company, inasmuch as Government and is obtained as far as it is ever likely to be required under the most unfavorable conditions of traffic. The permission to utilise the present Government road reduces considerably the work necessary for the formation of the Line ; its alignment is almost straight, and the line will run on the berm of the road (which is sufficiently wide for the purpose) without disturbing existing traffic, effecting a great saving in the cost of land and earthwork. No engineering works of any magnitude are necessary. The ruling gradient will be 1 in 2,100 for the 35 miles nearest Bareilly, ascending gradually to the steepest gradient of 1 in 68·3 (for a short distance only) as the line approaches its terminus at the foot of the hills. The right to cut sleepers in the Bhapur close to the Line will be a great saving in one important item of construction ; while the grant to cut fuel for engines will considerably cheapen the working of the Line when open.

6. It is proposed to follow closely the system of construction so successfully adopted in the Provincial Light Railways. Detailed plans and estimates are being prepared accordingly, and meanwhile the estimate made last year has been carefully revised with reference to increase in the price of Iron, The Cawnpore and Fatehgarh Railway, which is in most respects similar to the proposed Line, will cost, including rolling-stock, Rs. 36,500 per mile. The proposed Capital of 24 lacs, or nearly Rs. 39,000 per mile, will therefore be ample to construct, equip, and work the Line.

7. The financial prospects, as computed from reliable returns of existing traffic, are as follows :—

Income.	Rates sanctioned by Government.	Rs.
4,000 Upper Class Passengers at	12·0·0 each	48,000.
100,000 Lower do,	do. 1·8·0	1,50,000.
300,000 Maunds Goods	do. 0·6·0	1,12,500.
Government Subsidy		40,000.
Mail do.		10,000.
	Total Rs.	3,60,500.
The cost of working the Line has been carefully estimated, and will not exceed per annum	„	1,00,000.
Leaving a nett Income of	„	2,60,500,

or Rs. 10·8 per cent on the Capital, and, even if the most unfavorable conditions be assumed, and only 2-3rds of the Lower Class Passengers and Goods traffic be absorbed by the Railway at first,opening (the other items being certain), the nett profit will be Rs. 1,73,000, or 7·2 per cent nearly.

8. The cost of working the Line bears a low percentage to the income owing to the necessarily high fares and rates sanctioned, the Subsidies, and the low cost of fuel.

9. The prospects of a large development of the present traffic when stimulated by the improved means of communication, and the certain extension of cultivation in the rich and extensive Government estates of the Bhabur and Terai, are most promising. The proposed terminus near Ranibagh is already connected with the popular hill station of Naini Tal by a splendid bridle-road, and an excellent cart-road ; and a still further improvement in the latter, to be put in hand at once by Government (see clause 2 b.), will enable Passengers and Goods to be conveyed by Tongas and Bullock-waggons in a distance of 13½ miles to the Brewery, which is only 2 miles from Naini Tal, by a good, shorter road, and 10 miles from the Military depôt of Kali Khan by cart-road. The terminus is also connected with the Military Stations and Sanitaria of Ranikhet and Almora by good bridle-roads ; and the projected Railway from Moradabad to Ramnagar having been definitively abandoned by the Secretary of State, the proposed Line will be the nearest and most convenient route for these Stations also. Competent engineering opinion pronounces that the terminus can be easily connected with these places by good and cheap cart-roads, which will bring each of them within about 41 miles of Ranibagh by driving-road, against 57 and 86 miles, as they now are respectively, from Ramnagar (the only other outlet from the hills). The whole province of Kumaon and its Tea Districts will then also be tapped by the Line.

10. The officers to whom it is proposed to entrust the construction of the Railway and the management of the Company's business combine many years' experience of work in the locality and acquaintance with local rates and sources of labor with practical knowledge of light Railway Construction. It has therefore been considered advisable that the work should be carried out entirely by petty contract under the immediate supervision of the Engineer, and it will be completed within two years from date of commencement.

11. It is proposed to raise a portion of the Capital in London to pay for permanent-way, &c. The whole of the Capital will be in Shares of one hundred Rupees each ; and the portion sold in London will be paid for at the current rate of Exchange when the calls are made, and dividends on them paid in the same way.

12. A large portion of the Capital has already been subscribed by local Native Capitalists, and the Directors now invite application for the remainder.

13. Deposits on account of Shares should be paid to the Company's Bankers, from whom Forms of Application can be obtained. Applications for Shares, with Bankers' receipt attached, are to be addressed to the Secretary, Bareilly and Kumaon Railway Co., Ld., Naini Tal, N. W. P., or to Messrs. Lyall, Rennie and Co., Calcutta, with whom, and with the Company's Bankers, copies of the Memorandum and Articles of Association, and the terms of Agreement and Concessions received from the Government of India, can be seen.

V. PROTECTED BY THE ROYAL LETTERS PATENT, DATED OCTOBER 11, 1869. R.

DR. BRIGHT'S PHOSPHODYNE,

The New Curative Agent and only Reliable Remedy for Indigestion, Nervous and Liver Complaints Fevers, and all Functional Derangements.

DR. BRIGHT'S PHOSPHODYNE is acknowledged by the first medical men in Europe as the most efficacious medicine hitherto discovered for Weak and Shattered Constitutions, Nervous Debility, Aversion or Incapacity for Study, Trembling of the Limbs, Indigestion, Female Complaints, Flatulence, Liver Complaints, Shortness of Breath, Drowsiness, Pains in the Head, Pimples, Impoverished Blood, and all diseases caused by a long residence in tropical climates, for which iron, mercury, iodide of potass, &c., are given in various forms, often to the destruction of the patient's health.

CAUTION TO THE PUBLIC IN INDIA.

Beware of a WORTHLESS IMITATION, advertised in a few Indian Newspapers. Dr. Bright's (the only genuine) Phosphodyne is the safest and most reliable preparation of Phosphorus, and the only medicine of that name recommended by the Medical Faculty.

Fraudulent Imitations are in no way recognized by the Medical Profession, and are either Useless or Positively Dangerous.

DR. BRIGHT'S PHOSPHODYNE.—Until the introduction of DR. BRIGHT'S PHOSPHODYNE in 1869, Phosphorus was but seldom prescribed as a Medicine, owing to the difficulty in so preparing it that its action could be kept under perfect control. It had been used in Alkaline and Olive Oils, in Sulphuric Ether, in rectified Alcohol, in Chloroform, and in several advertised medicines ; but in all the hitherto known methods of its preparation, certain irregular results have been experienced. But in the form of DR. BRIGHT'S PHOSPHODYNE, its invaluable action on the human system is realized without any of those drawbacks which other modes of preparation invariably produce.

DR. BRIGHT'S PHOSPHODYNE

Is Sold in Cases only by all Chemists and Storekeepers throughout the Globe.

DR. BRIGHT'S PHOSPHODYNE.—Full Directions for use in the English, French, German, Italian, Dutch, Spanish, Portuguese, Russian, Danish, Turkish, Persian, Hindostani, Madrassee, Bengalee, Chinese and Japanese Languages accompany each case.

DR. BRIGHT'S PHOSPHODYNE.—Purchasers of this medicine should be careful to observe that the words "Dr. Bright's Phosphodyne" are blown in the bottle, and that the directions for use are printed in all the languages as above, without which none can possibly be genuine Phosphodyne. Every Case bears the Trade Mark and Signature of Patentee.

☞ ASK FOR DR. BRIGHT'S PHOSPHODYNE,
And do not be pursuaded to take any Useless and Possibly Dangerous Substitute.

COMMERCIAL INTELLIGENCE

MONDAY EVENING, Nov. 8, 1880.

CONSOLS in London on Saturday were unchanged at 99⅞, French Rentes at 119¼, and Enfaced Rupee Paper at 80⅝ for Fours and 88 for Fours-and-a-half.

In Cotton there was no alteration in either the Liverpool or New York markets, and with the exception of a reduction of 6d. per quarter in Wheat, to arrive, General Produce was likewise unchanged.

The Bank of Bombay return for the week ending on Saturday shows the following changes :—

Public Deposits at H. O.	.....	Dec.	Rs. 4,18,199
Do. do.	Branches	Inc.	,, 2,154
Other Deposits	.....	Dec.	,, 6,27,133
Government Securities	.....	Dec.	,, 11,83,726
Loans	.....	Dec.	,, 5,76,555
Bills Discounted	.....	Inc.	,, 9,37,535
Cash with Correspondents	.....	Dec.	,, 47,004
Cash and Currency Notes	.....	Dec.	,, 2,28,519

These figures, on the surface of things, would appear to indicate a somewhat increased demand for Money ; but, judging from the symptoms apparent outside, we are inclined to think that the movement cannot be more than temporary. The exchange banks are all well provided with funds, and not only can Money be had at call, but there are lenders at low rates for three months certain on good joint-stock shares at under the Bank's advertised minimum.

EXCHANGE.—The market for Sterling opened with a decidedly weaker appearance, and a decline of 1-32d. was established in ready paper both for Bank and private paper, demand Bank Bills having been placed to some extent at 1s. 7 23-32d., 3 months' Credits at 1s. 7 15-16d., and 6 months' at 1s. 8 1-32d. These rates, however, were exceptional, and could not be repeated at the close. For future delivery all about the tendency has been steadier than for ready, and at the equivalent of 1-32d. per rupee per month the Banks have been more willing sellers than buyers. This indication, however, may be taken for what it is worth. We may possibly have seen the bottom of the market, but with Money so plentiful, as it is both here and in Calcutta, it does not look like it. Closing quotations for ready bills are :—

Bank Bills on demand	.....	1s. 7d.	per Rupee.
Do. telegraphic	.....	1s. 7 23-32d.	,,
Do. 3 months' sight	....	1s. 7 27-32d.	,,
Credits, 3	,, ,,	1s. 7 15-16d.	,,
Documents, 3	,, ,,	1s. 7 31-32d.	,,
Francs, 3	,, ,,	20. 11c.	,,

On Calcutta we quote telegraphic at 1-32 per cent. premium ; 60 days' sight quite nominal.

GOVERNMENT PAPER opened weak this morning with a decline of ¼ per cent., but in the afternoon steadied up again, and we now quote Fours, Rs. 93 7-16 ; Fours-and-a-half, Rs. 107¾. At this comparatively high level there is necessarily a somewhat uncertain feeling about which is to some extent aggravated by the attempts of speculators for a fall, endeavouring to sell for January and February delivery at a material reduction in rates, but we still incline to the idea that Paper will hold its own for some little time if nothing of an unforeseen character intervenes.

SHARES.—The market is still strong, and although in some few cases quotations are irregular, the general tendency is upward. In Bank shares Bank of Bombay have advanced to Rs. 722½ and Nationals to Rs. 104. Land Companies are unchanged. Press shares are firm, and we quote an advance of Rs. 2 in Broach Cotton, Rs. 7½ in Berar, and Rs. 15 in Mofussil. Spinning and Weaving Companies are slightly irregular, but in the main, prices still go in favour of holders. The advance latterly has, no doubt, been large ; but, as a general rule, values are still below what they were before the sudden drop of two years ago, and the position is infinitely stronger than it then was. In Miscellaneous Companies Bombay Saw Mills are Rs. 10 and Bombay-Burmah Trading Company's Rs. 35 per share higher.

COTTON.—We could scarcely have had a quieter market than to-day. Neither in ready Cotton nor for future delivery has there been any demand for export, and rates remain unchanged all round.

SEEDS.—Linseed is in request at Rs. 6-14 for ready and Rs. 6-9 for April-May delivery, at both of which figures business has been done. Rapeseed has been bought at Rs. 5-14 per cwt. for new Guzerat, April-May delivery.

WHEAT.—Business is practically at a standstill for the moment. The nominal rate for Soft White is Rs. 3½ per candy, but with present rates of freight buyers are unable to operate at the figure.

FREIGHTS are very firm. For Liverpool to-day engagements have been made by the Branksome Hall at 42s. 6d. while consignments decline to-day for the two following steamers. Continental and Mediterranean rates are unchanged.

PIECE-GOODS are quiet, the clearances from the bazaar being only estimated at about 400 packages. Prices show a weaker tendency, and to do business from first hands, probably a reduction of ¼ to 1 anna per piece would have to be accepted.

COALS are firm with few sellers. A speculator is reported to have sold Davison's and Cardiff, to arrive by steamer, at Rs. 16-8, but this wants confirmation.

Messrs. C. MARCKS & COMPANY,

OF

BOMBAY and POONA,

HAVE the pleasure of announcing that Mr. A. MENIST, Oculist's Optician, of Amsterdam and London, has appointed them AGENTS for the sale of his celebrated PEBBLE SPECTACLES and EYE-GLASSES, BINOCULARS, &c.

Mr. MENIST makes his Frames of Gold and Silver only, which have been found to be the best metals for the purpose, his object being to obtain perfection as nearly as possible, without regard to cost. He does not use steel, for this metal rusts, and the joints become loose, altering the focus of the glasses, and so injuring the eyes ; neither is there any economy in it, for in this climate it corrodes so quickly that it must be often renewed, while Gold or Silver are practically everlasting, and Aluminium cannot be used, for it leaves an idelible mark on the skin wherever it comes in contact with it.

MR. MENIST'S NON-PRESSURE EYE-GLASSES have a spring so made that it may be twisted in any direction without breaking, and they maintain their position when worn without any pressure or leaving any mark when removed.

His 12-lens "DUCHESSE" are all Achromatic and as powerful as Field Glasses.

His FIELD, MARINE, and OPERA GLASSES may be used for hours without causing the eyes to ache.

MR. MENIST has left instruments with Messrs. C. MARCKS and Co. which enable them to test each eye separately, for it frequently happens that they differ more or less in power.

MESSRS. C. MARCKS and Co., for the convenience of clients who may not wish to purchase Mr. MENIST'S GLASSES, have also in stock some of their own manufacture, at lower prices, in Gold, Silver, and Steel frames, and though the quality of the pebbles is admittedly not equal to those of Mr. Menist, yet it is very good, and much superior to most of what is sold as the "finest Brazilian Pebbles."

Pamphlets may be had on application.

TELEGRAMS.

THE LAHORE DURBAR.

(FROM OUR OWN CORRESPONDENT.)

LAHORE, Nov. 8.

The arrangements for the Viceroy's visit to Lahore are all completed.

His Excellency arrives at four in the afternoon of Wednesday, and will be received at the railway station by the Lieutenant Governor of the Punjab, the Commander-in-Chief, with the British officers deputed to accompany him, the Judges, the General Officers Commanding, the Chief Commissioner, the Secretaries to Government, the Maharajah of Kashmir, and ten Rajas.

Guards of honor will be furnished by a European regiment and the Lahore Volunteers. A royal salute will be fired.

The Municipal Committee will present an address at the railway station. The Viceroy and the native chiefs will then mount elephants—about fifty in number, it is expected—and a grand procession will be formed, going first to the Delhi Gate of the Lahore City, thence outside the city walls to the Viceroy's camp. The distance to be travelled is about three miles. The procession will be accompanied by one squadron of the Central India Horse, E-4 Royal Artillery, and one squadron of the 10th and 15th Hussars. The troops will line the route of the procession.

On Thursday the Viceroy receives visits from the native chiefs, and holds a levee in the evening at 10 o'clock.

On Friday His Excellency returns the visits and attends the races.

On Saturday there will be a grand review, in which ten thousand troops will take part.

On Monday the Viceroy holds an investiture of the order of the Bath, when Sir Donald Stewart and Sir Frederick Maude will be invested with the insignia of the order. A durbar will be held afterwards; and in the evening Lord Ripon attends the Afghan Subscription Ball at the Montgomery Hall, to which all officers are invited who have returned from Afghanistan.

INSPECTION OF TROOPS.

To-day the Commander-in-Chief inspected at Mean Meer all the troops in garrison. The infantry in columns, with artillery and cavalry and elephant battery, marched past. The Commander-in-Chief addressed the troops.

REMAINS OF THE LATE GENERAL BROOKE.

(FROM OUR OWN CORRESPONDENT.)

KURRACHEE, Nov. 9, 0-41 A.M.

The body of the late General Brooke was brought to Kurrachee from Kandahar yesterday for transmission home to his relatives. A party of the 88th escorted the remains from the city station to the Kurrachee arsenal.

The body will be placed on board the Dalhousie on Wednesday in charge of an officer of the 61st Regiment proceeding to Bombay in charge of details.

General Hume, with Captain Braddon, A. D. C., and Mr. Barnes, C. S., passed through Sukkur on the 6th instant *en route* to Kandahar.

THE ECCLESIASTICAL CHARGE OF SUKKUR.

The Reverend J. R. McDuff has given up a vicarage in Leeds for Sukkur. He will be on the list of the Additional Clergy Society of Lahore, and will arrange to visit Jacobabad one or two Sundays in the month.

THE SCINDE DISTRICT COMMAND.

Colonel French, R. A., 1st Division, Kandahar Field Force, having arrived here, has been appointed to command the Scinde district.

MOVEMENTS OF TROOPS.

A wing of the 61st Regiment left Kurrachee for Quetta on Friday. The 66th (Berkshire) Regiment arrived here from Kandahar yesterday in charge of the following officers:—Colonel Hogge, Major Ready, Captains Quarry, Mackinnon, and Pierse, Lieutenants Bruce, Faunce, FitzGerald, Odenel, Edwards, Lynch, wounded, and Mellis, Paymaster Mayers, and Surgeon-Major Waghorn. The men marched to barracks from the railway station in excellent health and spirits. The regiment will leave for England next January.

THE GOVERNMENT ADVOCATE OF KURRACHEE.

Mr. F. C. Constable, Government Advocate, returned to Kurrachee from England on Saturday and received over charge from Mr. Pinhey.

STEAMER REPORT.

GALLE, Nov. 8, 4-20 P.M.

French mail steamer Amazone, from Suez, arrived.

THE 7th of December is the date fixed for the Volunteer Ball to take place, provided the Government grant the use of the Town Hall for that date.

THE Lahore Volunteer Corps have received a Parsee as member, according to a correspondent of a Parsee paper.

THE *Kandahar News* says that the transport of supplies to the front is going on apace at Sibi, and that troops also are leaving Sibi daily for India.

LIEUTENANT-COLONEL C. A. DE KANTZOW has arrived in Lahore, and has been placed on special duty under the Foreign Department, in connection with the Lahore durbar.

Two companies of the 1st Battalion Rifle Brigade will march on the 10th instant for Sattara to relieve the detachment of the 83rd Regiment, at present stationed there. On relief as above the companies of the 83rd Regiment will march to Belgaum and join the head-quarters of the corps.

DR. MCLAREN, the accomplished Civil Surgeon at Dehra, has, we are informed by an Allahabad paper, just achieved a successful operation on the right eye of the ex-Amir Yakub Khan, now residing at Mussoorie. A fleshy excrescence of some years' gathering was removed, and when the surface shall have recovered from the immediate irritation and other obvious effects of the operation, complete recovery of the imperilled vision is secured.

IT is whispered widely, says the *Indian Herald* in a mysterious way, that a conspicuous official of next to the highest rank in this part of the country is seriously resolved to abandon secularism and devote the rest of his busy and industrious life to the pursuit of Theosophy as understood by the Olcott-Blavatsky firm.

MR. C. E. GLADSTONE, C. S., Officiating Deputy Commissioner of Dehra Ghazi Khan, is transferred to Multan as Judicial Assistant Commissioner, from the end of the present month, on being relieved by Captain Roberts, Officiating Deputy Commissioner, Multan, who is relieved of his present post at Multan by the return of Major Lang.

THE *Indian Herald* believes that the Hon'ble Mr. R. Spankie has definitely made up his mind to retire from the bench of the North-Western Provinces High Court in April next. It was originally Mr. Spankie's intention to have retired in April, 1879, and he would have done so had he succeeded in obtaining the maximum annuity to which a judge of the High Court is entitled.

IT is said that Mr. Melville, the Governor-General's Agent at Baroda, intends going home on a year's furlough next February, and that at the expiration of his leave he will retire from the service. A correspondent of the *Bombay Samachar* states that Sir Madhow Rao will in that case resign the Dewanship. The writer adds that the Chief Justice of Baroda, Khan Bahadoor Khurshedjee Rustomjee, also intends retiring shortly owing to failing health.

AT the beginning of the year the managers of the S. P. and D. Railway line are to introduce a great improvement. This will consist in the free delivery of goods at the residences of the consignees; or more correctly speaking, the boon will consist less in free than prompt delivery. On and after the 1st January next, packages will be distributed immediately on their arrival, and at the company's own expense, at their respective destinations. This new method of free and prompt delivery will be confined, in the first place, to the stations on the line, such as Delhi, Umballa, Lahore, Amritsar, &c. It is said that Government have heartily approved of the company's resolution.

MR. KAYE, of Hyderabad, well-known in connection with the Madras Railway case, is said to be contemplating an appeal to the Bombay High Court against the decision of a local court sentencing him to pay a fine for defaming a Hindoo pleader.

SIR FREDERICK MAUDE'S tenure of command of the Rawal Pindi Brigade will, says the Lahore paper, expire on the 5th November, and, in leaving, he will carry with him the respect, the regrets, and the best wishes of all who are serving under his command. He is a very hard-working and thoroughly conscientious gentleman, perfectly honest, straightforward, and reliable, a soldier of great knowledge and experience, and one in whom all who know him have the most complete confidence. Few officers in the army have worked harder or done better service, and as this is well-known at the Horse Guards, he will no doubt soon obtain that further employment for which he is so well fitted, and which he so richly deserves.

THE *Kandahar News* is down upon the correspondent of the *Pioneer*. The Kandahar paper remarks:—We see in the impression of our contemporary the *Pioneer* of the 9th instant a tit-bit taken from a letter from its special correspondent at Kandahar regarding the Bombay troops, in which he says that "directly they came up, it became a common practice with officers to go about the streets and cantonments with drawn sword or pistol in hand ready for the Gay Ghazi," &c. If the *Pioneer's* correspondent had taken the trouble to enquire, he would have found out that the Bengal officers and troops under General Stewart were in the habit of going about similarly armed, so that the Bombay troops only followed their good example. *Ab uno disce omnes.* If all the statements of its correspondent are to be judged by this one, we must congratulate our contemporary on the mass of valuable information he has obtained from Kandahar.

COMPLAINTS both loud and deep are made respecting the arrangements at the various rest-camps between stations in Northern India and Deolali for the reception of invalids and time-expired men who have to halt at certain intervals. Many of these helpless men have their families with them, and the long journey to Bombay is made in terrible discomfort. A correspondent, whose word can be trusted, writes to the *Pioneer*:—"It is bad enough for large parties sent by special troop-trains arriving late at night or in the early morning. After a heavy journey they have to unload the waggons, and tramp to a so-called 'rest-camp'—into comfortless tents often, as at Jubbulpore. But imagine what it is for small parties sent by mail or passenger-trains, arriving often in the middle of the night, and tumbled out, with all their baggage, at a station over a mile from camp. At Khundwah they will find bare boards to receive their already aching bodies. One must really see this state of things to believe in its possibility in this enlightened age. The Quartermaster-General's Department is responsible for the strict poverty which reigns in the rest-camps; cannot the luxury of a bed be granted to an invalided soldier, and time-expired men have their homeward journey made a little less of a penance?

SOME of the Scotch residents of Lahore have, we are informed by the *Civil and Military Gazette*, held a meeting for the purpose of giving an entertainment to the men of the 72nd and 92nd Highlanders, in welcome of their return from Afghanistan, and recognition of their gallantry during the war. The meeting was merely preliminary, its work being confined, first, to discussing the project, consulting Colonels Parker and Stockwell, the commanding officers of the regiments concerned, and arranging for a general meeting, at which the details of the project should be settled. Both officers have heartily accepted the proposal; and it is not supposed that the men will entertain any insuperable objection to being *feted*. As Lord Ripon leaves early on the morning of the 16th, it was suggested that an hour or two might easily be found in the early afternoon of that day, for the tiffin or dinner, or whatever it is to be. A site for the entertainment has been provisionally fixed upon, at a point midway between the two camps. Excluding the invalids—as, unfortunately, must be done—there would be about twelve hundred men available for the modest treat. Though the idea was started by the Lahorites, the hope is that the entertainment will be given by the Scotchmen of the Punjab.

THE *Golos* of the 12th October speaks of the internal difficulties with which Russia is just now occupied, and foremost among which is the famine mentioned in Reuter's telegram of the 2nd instant. The *Novosti*-Tscherkask, stating that, in view of the scarcity of cereals, the municipality and merchants of the town had petitioned the Minister of the Interior to prohibit the export of grain from ports in the Sea of Azof. Another telegram says that Count Loris Melikoff had himself been to the Corn Exchange, St. Petersburgh, to make enquiries about the prices, stocks, and export of grain; and, according to popular rumour, the contents aided the prohibition of exports. The *Golos*, speaking of the high prices of grain, was inclined to attribute some of this to the action of speculators, stocks being kept in hand in hope of a further rise. A telegram from St. Petersburgh, dated October 13th, contradicts a report that Government meant to prohibit the export of cereals, or else to impose an export duty.

MILAN is one of the few Continental cities in which the practice of cremation has not only obtained considerable popularity, but has become of late years a officially recognised institution. The chief laboratory in which dead Lombards and the defunct aliens whose relatives have been unable to obtain permission to burn them elsewhere are reduced to ashes is situate in the town cemetery; and the municipality of Milan is about to add to the attractions of this establishment by erecting a cinerarium thirty-two feet high and six feet broad in the immediate vicinity of the mortuary furnace. This architectural receptacle of human ashes is to be Etruscan in style, and the material utilised for its construction will be white marble. Its superficial structure is to contain one hundred and twenty-six niches for the reception of cinerary urns, and as many more will be accommodated in subterranean vaults fitted up with the pigeon holes of different sizes, ranging between a cavity that will house a large soup-tureen and a nook in which a tiny jam-pot may be neatly stowed away. This arrangement is a graceful concession on the part of the Milanese Town Council to individual taste in urns as developed in "melancholy survivors," some of whom may wish to express their respect to the dear departed in vases of majestic proportions, while others may be prompted by economical considerations to put away the remains of their relatives in the smallest-sized jars that will contain them.

JACOB'S RIFLES.

THE behaviour of Jacob's Rifles on the occasion of the Maiwand defeat has been criticized with a severity which, of course, has ruined the reputation of the regiment, and much of this criticism is now resented by officers who were with the Rifles in action. Colonel Mainwaring, for instance, accuses our special correspondent of ill-feeling, and hints that his criticism has now served for Kandahar is liable to be "named," although he is "neither English, Irish nor Scotch." The hint, however, may be passed over, especially as the wrong man is plainly referred to. But Colonel Mainwaring appeals to our sense of justice to correct certain errors which he considers of great importance, and we willingly do this, although the main point at issue is very slightly affected thereby. Thus it appears that the left-half battalion of the Rifles, and not the whole regiment, was in reserve when General Burrows formed his troops in line, after the nullah had been crossed. Instead of there being between 200 and 300 sepoys in the ranks who had not fired ball-cartridge, there were only 96. "Fifty of these had joined from the depôt since the arrival in the neighbourhood of Kandahar, and had only received rifles on leaving the depôt. Of the remaining 46, some had been put through the musketry course, but had failed to get a sufficient number of points to pass them into the ranks. The whole had been practised at position and aiming drill and with blank cartridge: none of the 96 would have been allowed to attend an exercise parade in quarters." From this it would appear that the regiment was really more efficient than reported, though whether that is a point in its favour, viewed by the light of subsequent events, is open to question. The wavering of the two companies on the extreme left of the position is said by Colonel Mainwaring to "require explanation," but all he gives is as follows:—"When the second position was taken up, the escort of cavalry with the four guns R-B, R. H. A., was taken away, and the right-half battalion, Jacob's Rifles, was moved to the right of the guns, and exactly in a line with the two on the right (f) of the battery. The two leading companies of the half battalion in reserve were moved up on the left of the guns, and the remaining two companies were sent to the left of the Grenadiers, under a young officer who had only been three weeks with the regiment and about three years in the service." There is no other explanation offered, and the insinuation thrown out is, that the young officer was not able to keep his men in hand. It is the old story of casting blame upon dead men. Colonel Mainwaring further thinks that the statement, "the remaining companies of Jacob's Rifles shared the panic," is very unfair. He writes:—"Not a man of the six companies moved a foot with a view to retirement until the guns of E-B, R. H. A., which they were supporting, had been taken to the rear, and until they saw that their left flank had been turned by the enemy who were in rear of them in hundreds. During the three hours that these six companies were under fire, both front and flank, they had themselves fired away the whole of the ammunition they carried, and were well into the first reserve; thus having fired from 80 to 90 rounds per man. So well-sustained and so well-directed was this fire, that I was twice able to give the word to cease firing because the enemy had been driven back." It is only fair that these details should be made known, but it is a question of fact which perhaps only Captain Slade of E-B battery can answer as to when the guns lost their infantry escort. *When* did the six companies share the panic, for there is no attempt to deny that they did break their ranks? The expenditure of 90 rounds of ammunition per man means but little, for the 592 men of Jacob's Rifles present are returned officially as having fired 120,900 rounds, or more than 200 rounds per rifle. Native troops use the breech-loader with more zeal than judgment generally. Take the case of the 900 men of the 3rd Bombay Light Cavalry who (according to their watchers) fired 25,945 rounds of Snider ammunition on July 27th and 28th. Colonel Mainwaring's case, as stated by himself, makes the charge against his regiment a little lighter; but the official criticism may be has shaken his men clear of the reproach they are generally supposed to have incurred?—*Pioneer.*

THEFT.—Hunnooman Buktawur was yesterday convicted by Mr. Desabhoy Framjee of stealing a copper vessel, valued at Rs. 5, belonging to Mooneeram Chotoo. He was sentenced to one month's rigorous imprisonment.

A SUSPICIOUS CHARACTER.—Ameerkhan Ahmed was yesterday sentenced to one month's rigorous imprisonment by Mr. P. Ryan for being found loitering at night at 2nd Coombarwarra-street and failing to render a satisfactory account of himself, he being a reputed thief.

DROWNED.—A coroner's inquest was held yesterday at the Morgue, Cammateepoora, on view of the body of Purshotum Waghla, a dhoby, who had accidentally fallen into a well on the Byculla Flats and was drowned. A verdict of accidental death by drowning was recorded.

SENT TO THE REFORMATORY.—A Mahomedan lad, aged fourteen years, named Ismail Hajee, was yesterday convicted by Mr. P. Ryan of stealing a watch and chain, valued Rs. 22-3-0, the property of Ahmed Hoosein. He was ordered to be sent to the Sassoon Reformatory.

BOMBAY NATIVE DISPENSARY.—The total number of new patients treated during the last month at the head branch of this institution, Dhobi Talao, was 2,326, the average daily attendance being 283·74. The prevailing diseases were intermittent fevers and bowel and chest diseases.

ASSAULT.—Marriam Alex and Francis Thomas were yesterday convicted by Mr. P. Ryan of assaulting Salvador Rodrigues at his residence at Sonapore. Prisoner No. 1 was sentenced to one month's rigorous imprisonment, and the other was fined Rs. 5, or in default to suffer one week's rigorous imprisonment.

THE ROOKMINIBAI DISPENSARY AT CALLIAN.—During the month of October last, 572 patients were treated in this charitable institution; there were 484 new admissions (including 4 in-door patients), of whom 381 were cured, 115 absented, and 76 are still under treatment. This includes 88 remaining from last month.

SUDDEN DEATH.—A coroner's inquest was held yesterday at Lohar Chawl on view of the body of Mahadoo Heeroo, a boiler-maker and fitter employed at the Municipal workshops, who died suddenly at his residence on the night previous. The verdict was, "That the death of deceased was caused by heart-disease."

ACCIDENT.—Balloo Sambajee, a lad, aged 8 years, yesterday fell off a cart that was conveying cotton bales to the Prince's Dock, and the wheel of the vehicle passed across the right side of his head, causing fracture and severe laceration of the scalp. He was conveyed to the Sooculdass Tejpal Hospital, where he is under treatment.

BATHING ON THE SEA-FACE.—The petition drawn up some time since, praying that permission might be given for the erection of a bath on the sea-face has been very numerously signed, and will be presented to H. E. the Governor in a few days. The movement being so strongly supported, there is every probability of the petition being carefully considered.

THE POLITICAL AGENT, KATTYAWAR.—Colonel Barton, Political Agent, Kattywar, and Mrs. Barton, left Bombay for Bhownugger on Thursday last. Messrs. Jasuljee (brother of the dowager Ranee of Kutch and a member of the late Regency), Bhaskerrao Balcrustnajee (H. H. the Guicowar's Agent), Gopinathjee Sadashivejee (karbarree of Palitana), and others were at the Church Gate Station to see them off.

ENTICING AWAY A WOMAN FROM HER HUSBAND.—Ayub Ismail was yesterday convicted by Mr. C. P. Cooper of enticing away Bebee, woman, the wife of Ebrahim Khamissa, for immoral purposes. He was sentenced to undergo a term of six months' simple imprisonment, and was also fined Rs. 140, which sum, if recovered, was ordered to be paid to complainant as compensation. In default, defendant was to suffer a further term of three months' similar imprisonment.

FATAL FALL FROM A WINDOW.—A Coroner's inquest was held yesterday at Cowasjee Patel Street, Fort, on view of the body of a Parsee girl, named Heerabai, the daughter of Cowasjee Aspinarjee. Deceased, it appears, on the afternoon previous, while playing on a couch which stood near a window on the fourth floor of the house in which she resided, accidentally fell from the window to the public street, and died within a few minutes. A verdict of accidental death was recorded.

BOMBAY PORT TRUST.

EXCERPTS from the proceedings of a meeting of the Trustees of the Port of Bombay held on the 4th instant.

Resumed and took into consideration the letters from Messrs. Sigg, Sulzer, & Co., dated 12th, 18th, and 21st October, offering Rs. 100 a month as rent of half of G. transit shed at Prince's Dock until the month of July. The following rule for full cargo by one shipper was submitted by Messrs. Kittredge, Graham, and Douglas:—"That when the name of a ship or steamer is given for a full cargo to be loaded in the dock by one shipper cargo will be received and stored free of rent in the transit sheds for 15 days from date of application. After the expiry of 15 days the same rent as is levied on warrant goods, viz., one anna per ton per week or portion of a week, will be charged. This arrangement will be subject to there being available space in the dock sheds." Read letter from Messrs. Sigg, Sulzer & Co., dated 4th November, stating the interpretation they put upon the proposed rule. Resolution.—The proposed rule is agreed to. The rent of the land occupied by Messrs. Sigg, Sulzer, & Co. to the north of Prince's Dock should be increased to Rs. 5 per cutty of 500 square feet per mensem.

Read letters from the Superintendent, Government Telegraphs, dated 15th September and 27th October, in reply to an enquiry made as to the feasibility of substituting telephones for telegraph-communication with Prince's Dock. The Superintendent states that answers to the enquiries made will be sent when certain experiments now being made are finished, and he enquires whether in the meantime the Trustees wish to have telegraph-communication. Resolution.—Telegraph-communication between the Trustee's office and the Dock Superintendent's office should be made at once.

Submitted letter from the Traffic Manager, dated 21st October, with letter from Messrs. Rallí Brothers, offering to rent the troop-shed at Carnac Bunder for eight months at Rs. 30 a month, on condition that the floor be levelled and the partitions removed; also that a fence be erected on the railway side. Read memo. by Resident Engineer, dated 26th October, estimating the cost of removing the partitions and trimming the present floor and erecting a fence from old materials at Rs. 258, and the cost of re-erecting the partitions and removing fence, if the shed should be again required for troops, at Rs. 225. He states that the cost of raising the floor to the present level of the east end will be Rs. 173. Resolution.—Messrs. Ralli's offer should be accepted, subject to a month's notice in the event of the shed being required for troops. The necessary alterations should be made in the troop-shed.

Read letter from the Traffic Manager, dated 19th October, forwarding an application by Mr. Framjee Burjorjee for the lease of a plot of ground on Wellington Reclamation measuring 20 by 25 feet on the same terms as the Trustees have agreed to grant a lease to Mr. Bhicajee Canjeebhoy. The Traffic Manager states that the "rest-shed" recently erected for native passengers is now unused, and he recommends that instead of leasing fresh sites one-half of the shed be given to Mr. Bhicajee and one-half to Mr. Framjee for conversion into a shop. Read minutes of members of Land Committee. Resolution.—The application should be refused.

Read letter from the Traffic Manager, dated 12th July, forwarding letter from Messrs. Shepherd and Co., making certain demands in exchange for the enhanced fee imposed on their ferry-steamers. Read reply, dated 16th July, intimating that these demands cannot be complied with, but that the Trustees will consider the question of providing shelter for passengers at Carnac Bunder. Read minutes of meeting of Bunders Committee held on 9th August, recommending certain alteration in the fencing at south end of Carnac Bunder, whereby the gate-shed might be rendered available for a passenger-shed, and the wharf accommodation be increased by the removal of the fence further north. Read also minutes of members of Bunders Committee on circular dated 5th October. Read memo. by Resident Engineer, estimating the cost of making the alteration specified in Mr. Trevor's minute at Rs. 119. Resolution.—The alteration at Carnac Bunder recommended by the Committee should be carried out, the expenditure (Rs. 119) to be charged to revenue.

Read letter from the Collector of Customs, dated 4th August, requesting the Trustees to take such steps as may be possible to reduce to a minimum the risk to the revenue arising from the presence of such inhabited buildings within the Prince's Dock fence as it is not practicable to exclude. Read letter from the Resident Engineer, dated 23rd October, estimating the cost of carrying out the alterations required by the Collector of Customs at Rs. 331, and forwarding a plan showing the changes in the dock arrangements proposed to be made. Read minutes of members of Dock Committee. Resolution.—The alteration in the fencing as described by the Resident Engineer should be carried out. The cost, estimated at Rs. 331, should be met from revenue.

Read letter from the Dock Superintendent, dated 22nd October, enquiring whether complete refunds should be made in cases when goods are brought to the dock for shipment and are afterwards removed, or whether rule C, which provides for payment of shed-rent, should be enforced. Read minutes of members of Dock Committee. Resolution.—The Dock Superintendent should be advised that the rule should be adhered to; no claim for refund will be admitted to those who were hypocritical, rapacious, and sensual; and worshippers who lived false and unclean lives, beholding crime concealed and condoned, and virtue and wisdom put aside as obnoxious to existing conditions of society in Christendom, they stood apart from the world, turned to the east for light, and openly proclaimed themselves the foes of Christianity.

(I hope you will not feel annoyed at my writing and bothering you so often, but I assure you I never breathe so easily as when I either write to, or receive letters from, India. It seems to me as if I was sending a portion of my heart and soul to the blessed *Mother-Land* every time).

HURRY CHUND CHINTAMANI, ESQ.
To the Most Honorable Pandit Dayanand Saraswati, Swami.

We perceive, O! venerable Sir, in your definition of the nature and attributes of the All Good, that we humble students at the vest have not mis-interpreted the teachings of our Aryan ancestors. The supreme one whom you teach your disciples to contemplate and lift their aspirations to, is the very same Eternal Divine Essence whom we have been pointing these Christians to as the proper object of their adoration, instead of their own cruel, remorseless, and vacillating Molock—Jehovah. Permit us to give you the name of our Teacher, our Father, and Chief; and we will try to deserve by our actions so great favor. This is a sordid, prejudiced, and unspiritual people; their religious worship appeals to the bodily senses—to fear, pride, covetousness, cowardice, malice; their temples or churches vie with each other in ostentation; crime and vice nestle securely beneath velvet and silken robes, and in the corners of the soft-cushioned pews; their priests and ministers temporize with moral delinquencies, and promise the blessings of eternal communion with God and the saints in heaven to such as openly liberally and profess loudly. I clearly infer from your letter—that part where you speak of the phenomena of giving life to a dead man, healing lepers, moving a mountain, and touching the moon—as being "acting an irreligious spirit," and "sure to give rise to many mis fortunes"—that you disapprove of "miracle"—working. You esteem it as much inferior to the study of philosophy and one's innate spiritual powers. This is wisdom, and we recognize it as such. But the masses here, like the masses everywhere, are averse to philosophy and hunger after marvels. With politics we have nothing to do, with false religions and spiritual shams, everything. Not one of us but is bound by his pledge of fellowship to give all, even his life, for the cause of truth and for the honour and welfare of a brother. But our arena is the human heart. We prefer to teach, to would convince and not assassinate; we seek converts, not victims. And, conscious of our Western ignorance of the blind guides who claim the right to direct the destinies of the country and its millions, we turn to India, to the Arya Samaj, and to the venerated founder for counsel and instruction.

CHINESE OPIUM.

MR. C. M. FORD, Her Britannic Majesty's Acting Consul at Formosa, has sent the following despatch to the Secretary to the Government of India, Department of Finance and Commerce, dated Tamsuy, Formosa, the 9th August, 1880:—

I have the honour to lay before you the following report on native and foreign opium for the year 1879-80, as far as this Consular district is affected thereby:—

(1.) Separated as the island of Formosa is from the mainland of China, it is quite impossible to gather any reliable information at this Consulate with regard to the nature or extent of the crop in any of the provinces on the mainland, or with regard to

(2.) any particular circumstances that have affected, or are likely to affect, the outturn there.

(3.) Mr. Frater, in his report on opium for 1878-79, stated that "it has become known that the poppy is now being cultivated in this Consular district."

I have, for some time past, been making inquiries on this subject, with a view to confirming the above statement, and obtaining, if possible, further information; but though the statement, that the poppy is cultivated in the north of Formosa, has been repeatedly made to me, I have not yet been able, only as a hearsay, the persons making the statement not having seen the plant themselves, and sometimes it has been accompanied by a further statement that the people do not know how to obtain opium from the poppy. Finding that I could obtain nothing satisfactory from purely Chinese sources, I applied to Mr. Junor, of the Canada Presbyterian Mission, which has got numerous stations established throughout this district, asking him if he could procure me any reliable evidence on the subject. He replied, giving me the substance of the information gathered by a man, who had made full inquiry about the matter some months ago, and who, at present, had charge of the Mission, and adds that I may depend upon the information as being pretty correct. It is to the following effect:—

"That there is no place in the north of Formosa that he knows of—at any rate, not in the region of the Mission chapels—where the poppy is grown to any extent. That there are several places where there are to be found a few flowers, but only as flowers, very few people growing the capsules at all. That he has found one or two cases of the flower being grown without its being known to the grower to be the opium flower. That there were a few plants in a large garden at Tekcham, but that they are now dead. That Oulan had a few, and also Sintiam, but that he does not know about Tokaham.

Mr. Junor further states that he has himself spoken, a good deal with the people here from north to south, as far as he goes, about this matter, and feels confident that there is no cultivation of the poppy in this part of the island. I think it may be inferred from the above that it is merely as an ornamental plant; and for the sake of its flower that the poppy is grown in this district, and then only in small quantities here and there, but that it is not *cultivated* for the production of opium, more particularly as I have so far failed to obtain any evidence of opium produced from poppies grown in the island being sold here. I shall, however, continue to make inquiries with a view to clearing up this matter as opportunity offers.

(4.) I am not aware of any action under the Imperial or local authorities affecting opium in this district. The local officials must be perfectly well aware of the fact that a quantity of China-grown opium is annually smuggled into the district, but they apparently don't trouble themselves to take any notice of it.

(5.) It is authoritatively stated by Chinese that there has been an enormous increase during the past year in the amount of native opium that reaches this district from the mainland in junks. I have hitherto found that all efforts to obtain any statistics are futile, not a remarkable result, seeing that the drug is all smuggled, and that under these circumstances, there is naturally a reluctance to furnish even approximate figures on the part of those who are able to do so. The statement is confidently made, however, and is probably true, that the undoubted fact that it is most difficult to find a sale now for the lower grades of Persian opium, which used to be greatly in favour for the purpose of mixing with India drug, although here it is supplied to the military horse van at Rawul Pindi, so long held by the well-known Baboo Khem Kurm, Rai Bahadur, will be abolished. This old and very able and energetic official has now served the Government for a period of over 26 years, during which time he has had four months' leave of absence. His zeal for the public service has been supplemented by an invariable courtesy and attention to the requirements of all travellers who have sought his good offices and aid. His exertions during the many recent campaigns on the frontier have been unremitting, and most conspicuous during the Afghan war. I greatly regret to hear that he has suffered in health, and has impaired his eyesight considerably by his labors. If ever a native public servant deserved rewards and recognition at the hands of Government, Khem Kurm has merited them well; a handsome pension would be only a fitting conclusion to his official career of most prominent usefulness.—*Civil and Military Gazette.*

A COMING RAID UPON DUELISTS.—We are glad to learn that active measures are being organized by the Judge of Allahabad, in co-operation with a local Pleaders' Association, to eradicate the nuisance of duels and other interlopers in litigation. A full list has been prepared of all these jackals; and it will be affixed to conspicuous places about the Civil Court-houses, with a warning appended for the instruction of the public and suitors indicating the mischief and penalties attending the employment of such sub-persons. The subordinate civil Courts have also been invited to look out for unwarranted intruders on the legitimate domains of pleaders, mukhtars, and regular law-agents, and to send them in every instance to the District Court. The provisions of the new Act on this subject are in some respects perhaps more difficult to work in practice than they might have been; but it cannot be doubted that the regular, patient, persistent application of its terms in every sustainable case, coupled with continued admonition to persons who foolishly or in ignorance are led to engage the cheap but worthless and even pernicious services of these *duliats*, will lead first to their shifting, and in time to the complete disbanding of this hungry and pestilent horde.—*Indian Herald.*

TIT BITS FROM THEOSOPHISM.

UNDER this heading the Lahore paper publishes a number of extracts from Colonel Olcot's pamphlet, which state that the Society was founded in New York in 1875, and that at first it was an open body, but, later, it was re-organised on the principle of secrecy, experience having demonstrated the advisability of such a change. To be admitted into the highest degree of the first section, the Theosophist must, it seems, have become freed of every leaning toward any one form of religion in preference to another. He must be free from all exacting obligations to society, politics, and family. He must be ready to lay down his life, if necessary, for the good of humanity, and of a brother fellow of whatever race, color, or ostensible creed. He must renounce wine, and every other description of intoxicating beverages, and adopt a life of strict chastity. Those who have not yet wholly disenthralled themselves from religious prejudice, and other forms of selfishness, but have made a certain progress towards self-mastery and enlightenment, belong to the section. The third section is probationary; its members can leave the society at will, although the obligation assumed at entrance will continually bind them to absolute secrecy as to what may have been communicated under restrictions. The society teaches and expects its fellows to personally exemplify the highest morality and religious aspiration; to oppose the materialism of science and every form of dogmatic theology, especially the Christian, which the chiefs of the society regard as particularly pernicious.

The following are samples of Theosophical correspondence:—

To the Most Honorable Pandit Dayanand Saraswati, India.

Venerated Teacher.—A number of American and other students who earnestly seek after spiritual knowledge, place themselves at your feet, and pray you to enlighten them.

. . . . .

Finding in Christianity nothing that satisfied either their reason or their intuition, seeing on every side the evil effects of its pernicious doctrines, finding priests who were hypocritical, rapacious, and sensual; and worshippers who lived false and unclean lives, beholding crime concealed and condoned, and virtue and wisdom put aside as obnoxious to existing conditions of society in Christendom, they stood apart from the world, turned to the east for light, and openly proclaimed themselves the foes of Christianity.

You venerable man, who have learned to pierce the disguises and marks of your fellow-creatures, look into our hearts, and see that we speak the truth.

PHOSPHO! PHOSPHO!! PHOSPHO!!!

A NON-ALCOHOLIC SPARKLING RESTORER.

THIS new BEVERAGE, which has been under trial for some time past, is pronounced on competent authority to be an excellent TONIC RESTORER in all those forms of nervous disorder in which Phosphorus and Iron are indicated. As it stimulates and invigorates both the MIND and the BODY, we have no hesitation in stating that it is one of the most invaluable NERVINE TONICS extant, and is especially beneficial in constitutions enfeebled through OVERWORK, NERVOUS DEBILITY, and EXHAUSTION. Though a medicinal BEVERAGE, the taste of the salts entering into its composition has been almost completely disguised, and rendered agreeable to the palate, and may therefore be taken in the place of ordinary aerated water.

THE MOST USEFUL AND INTERESTING WEEKLY PAPER FOR ALL ENGLISHMEN ABROAD IS THE

PALL MALL BUDGET,
ESTABLISHED 1868.

PRICE SIXPENCE.

The PALL MALL BUDGET is a weekly collection of Original Articles, Occasional Notes, Essays, and Reviews printed in the PALL MALL GAZETTE from day to day, and is published for the convenience of persons resident in the remoter districts of Great Britain and Ireland, on the Continent, in America, India, Australia, and other distant places.

The PALL MALL BUDGET is composed of FORTY PAGES, in size and appearance like those of the PALL MALL GAZETTE.

The PALL MALL BUDGET also contains a complete, concisely written SUMMARY of NEWS, and is at once a Weekly Newspaper and a compendious Review of the Politics and Literature of the Week.

A SPECIAL EDITION, printed on Thin Paper for the Foreign Post, is published on FRIDAY AFTERNOON.

The SUBSCRIPTION, including POSTAGE, for the FOREIGN EDITION, printed on thin paper, is :—

INDIA AND CHINA,	ALL OTHER PLACES INCLUDED IN THE POSTAL TREATY,
8s. 2d.	7s. 7d.
PER QUARTER.	PER QUARTER.

All Subscriptions are payable in advance. Cheques and P. O. Orders to be made payable to HENRY LESLIE, and crossed London and Westminster Bank, St. James's-square.

OFFICES : 2, NORTHUMBERLAND STREET, STRAND, LONDON, W.C.

THE PALL MALL GAZETTE is a London Evening Paper, price Twopence, which was established in the year 1865 as an independent Liberal Newspaper and Review, and as such soon acquired a reputation as one of the Leading Organs of opinion in England. That its original character was Liberal as well as independent is sufficiently marked by the following announcement, which from its first issue and down to the present time has been published by way of advertisement to describe the objects and character of the Paper, and which is of itself a sufficient reply to an idea which has obtained in some quarters that the PALL MALL GAZETTE owed its position and success to its later extravagant advocacy of Jingoism :—

"THE PALL MALL GAZETTE—which is conducted on Liberal principles—contains all the latest Law, Police, Telegraphic, Monetary, and General Intelligence up to the hour of going to press.

"The PALL MALL GAZETTE also contains many original articles on Political and Social subjects' Reviews of Books, Criticisms upon the Theatre, the Opera, the Picture Exhibitions, &c., by independent and authoritative writers. The City Intelligence is made a great feature, and Foreign Correspondence appears in its pages."

Many improvements have recently been made in the contents of the Paper. It now contains an animated narrative of the Proceedings in Parliament, written by an eye-witness, a succinct and compressed summary of opinion from the Daily and Weekly Newspapers, and full Telegraphic Despatches from Special Correspondents at home and abroad.

In all respects the PALL MALL GAZETTE maintains its old traditions as an independent Liberal Journal.

HEALTH, STRENGTH, AND ENERGY.

DR. LALOR'S PHOSPHODYNE.

TRADE MARK—PHOSPHODYNE.

DISCOVERED AND SO NAMED, A. D. 1862, BY R. D. LALOR, M. D.

DR. LALOR'S PHOSPHODYNE is a Pure Solution of PHOSPHORUS, in combination with the Vegetable Alkoloids Quinia, Cyripedin, Xanthoxylin, &c., prepared by a Chemical process known only to DR. LALOR, producing a remarkably Elegant and Pleasant Tasted Preparation, equal to the best Wines, perfectly free from Strychnia and all other Dangerously Active Drugs; superseding the numerous objectionable forms of Phosphorus Pills, Pillules, Oils, and other Nauseous Mixtures with which the Market has been flooded since the Phosphoric Treatment of Disease was first made public by Dr. R. D. Lalor, in 1862.

To Residents in India, China, and the Colonies, it will prove invaluable as a Reliable Liver Tonic and a Vitalizing Restorative.

This Phosphatic combination, the Wonder of Modern Chemistry, is pronounced by the most eminent Members of the Medical profession to be unequalled for its power in replenishing and elaborating the Vitality of the body; by its supplying all the essential constituents of the BLOOD, BRAIN, and NURVE SUBSTANCE; and for developing all the Powers and Functions of the System to the highest degree; by its being agreeable to the palate, and innocent in its action. While retaining its wonderful properties, it acts as a Specific, surpassing all the known THERAPEUTIC AGENTS of the present age, for the SPEEDY and PERMANENT CURE of all derangements of the Nervous and Blood Systems, Nervous Prostration, General Debility, Mental and Physical Depression, Incapacity for Study or Business, Noises in the Head and Ears, Loss of Energy and Appetite, Indigestion and Liver Complaints, Flatulance, Nervous Fancies, Hypochondria, Nervous Debility in all its Stages, Loss of Memory, Softening of the Brain, Paralysis, Affections of the Kidneys, Bladder, Urinary Deposits, &c., Ague, Spasms, Asthma, Consumption, Chronic Bronchitis, Scrofula and Skin Diseases, Wasting or Withering of the Muscles, Impaired Nutrition, Impoverished Blood, Premature Decline, and all morbid Conditions of the system, dependent upon the deficiency of THE VITAL FORCES arising from whatever cause

DR. LALOR'S PHOSPHODYNE

Gives back to the Human structure in a suitable form the Phosphoric or Lively Animating element of life which has been wasted, and exerts an important influence directly on the Brain, Spinal, Marrow, and Nervous System, of a Nutritive Tonnic, and Invigorating character; thereby checking all wasting of the Vital Fluid, and the more Exhausting process sex of Life, by infusing that buoyant Energy on the Brain and Muscular System which renders the Mind Cheerful, Happy, Brilliant, and Energetic, entirely overcoming that Dull, Inactive and Sluggish Disposition which many persons experience in all their action.

CAUTION.—The Name DR. LALOR'S PHOSPHODYNE is blown in the Glass of each Bottle, and the Genuine Phosphodyne is manufactured at and is obtainable only direct from Dr. Lalor's Laboratory, London, England. WHOLESALE and EXPORT HOUSES are Specially requested to NOTE this. Sold in Bottles at 1s. 6d. and 11s. by all Export Wholesale and Retail Medicine Vendors throughout the World.

IMPORTANT NOTICE.—Every Bottle bears the British Government Stamp, with the words DR. LALOR'S PHOSPHODYNE, London, England, engraved thereon by Order of Her Majesty's Honourable Commissioners. IF NOT, IT IS A FORGERY, and you have been imposed on by a worthless imitation.

PUBLIC NOTICE AND WARNING to Medicine Vendors and the Public in Great Britain, India, China, and the Colonies.—DR. LALOR'S PHOSPHODYNE is the only Medicine bearing the name PHOSPHODYNE that has the Sanction of the British Government, and for which Her Majesty's Registrar of "Trade Marks" has granted Certificates to DR. LALOR ONLY. Therefore DR. LALOR'S is the only Legitimate and Genuine PHOSPHODYNE. BEWARE of Worthless Counterfeits that may emanate from Australia or America.

CARIMATA STRAIT.
POSITION OF GWALIA REEF.

WITH reference to the existence of a shoal reported in lat. 1° 12' S., long. 108° 43' E., on which the British ship *Gwalia* was totally wrecked on 15th February, 1880,—

The British Hydrographic Office has notified that the following further particulars have been received from Lieutenant and Commander W. H. J. Nowell, H. M. S. *Foxhound*, resulting from an examination of the locality made in May, 1880 :—

This danger (*Gwalia reef*) is of coral formation, nearly circular in shape, and about half a mile in diameter; the general depths over it are from 3 to 4 fathoms, but there are two patches, breaking at low water, on which the least depth found was 4 feet; the reef lies with the following bearings, *viz.*—

Carimata peak ...	S. 34° E.
Panambangan north peak ...	S. 81° E.

Position as given, lat. 1° 7' S., long. 108° 37' E.

During the *Foxhound's* stay the current set W. S. W. from one to two knots
